

Can charge **4** full **iPhones**

## Specifications

Model No: Power Bank 8000  
Capacity: 8000mAh  
Battery cell type: Li-Polymer  
DC Input : 5V 2A  
Dual USB Output: 5V 2A (MAX) x2  
Charging time: 4 hours (use the 5V 2A adapter charge)  
Main body size: 124 x 70 x 12mm  
Weight: 178g

### Battery Doctor

Recover battery capacity of your devices (Mobile Phone, MP3, etc), and prolong the battery life time

### Colorful

Colorful housing: beautiful white, wine red, cool black, white porcelain and so on

### Ultra Slim

Ultra slim size, only 12mm thickness, fashionable and portable

### Dual USB Output

Fit for iPhone, iPad, iPod, Galaxy tab , Mobile phones, MP3, MP4, PSP, Digital camera, GPS, etc

### High Capacity

Li-Polymer battery cell, compact size, 3.7V 29.6Wh capacity, the highest recycle life can reach to 1000 times

### Battery Power Indicator

Willow-like indicating lights, one light indicates 20% capacity

### High-light LED Torch

High-light LED light, torch use, a necessary friend for outdoor traveling

### Higher Efficiency

Power conversion efficiency is nearly two times than others

### Multiple Safety Protections

Built with short circuit protection, over charge protection, over discharge protection and over temperature protection

### Intellectual Design

Advanced MCU micro-computer chips control, assured detecting, switching and displaying the voltage automatically, human design and simple to operate

### Charge and discharge

Support charging and discharging simultaneously
